## Professional Development & Networking Newsletter

Dear Lek

The Covid-19 pandemic has had a major impact on the biocides industry – leading to an increase in demand for hand sanitisers and disinfectants, extended deadlines, disrupted supply chains and new derogations.

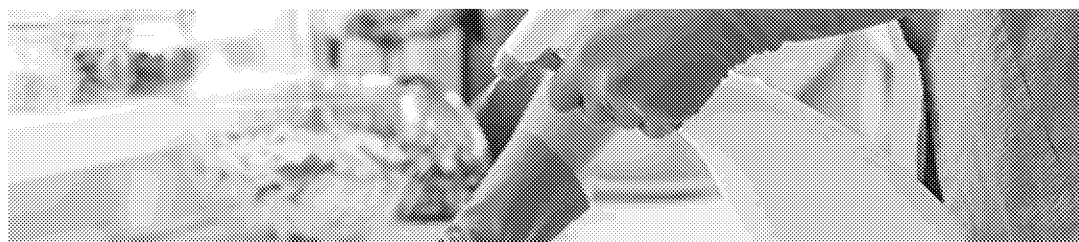

Staying ahead of any changes to the regulation of biocides is imperative at this time, so you can proactively make strategic decisions for your organisation and your approach to compliance.

Our annual Biocides Europe conference, taking place this December in the beautiful city of Copenhagen, will cover all of the important updates in biocidal regulations you need to know to keep up to date – find out more about the conference below.

**Also this week:** our **Guidance for Identifying Endocrine Disrupting Chemicals** online training course, the latest job opportunities, free webinars, training solutions, our full list of conferences and third party events.

### FEATURED VIRTUAL CONFERENCE: BIOCIDES EUROPE 2020

---

Get the latest updates in European biocidal regulations direct from the experts at Chemical Watch's 23rd **Biocides Europe** conference, taking place on 1-2 December in Copenhagen. The annual event will

welcome leading figures from the European Commission, Echa, member state competent and regulatory authorities, and industry to discuss key developments on:

- the assessment of endocrine disrupting chemicals (EDCs) under the EU biocidal products Regulation (BPR);
- how to optimise the registration process for applicants and authorities;
- testing and modelling;
- the significance of the Covid-19 crisis, Brexit and the EU chemicals strategy; and
- sustainable use, innovation and scope issues under the BPR.

If you're unable to attend in person, you have the option to livestream the full conference from your home or office with our FlexiPass offer. Find out more about FlexiPass

Book your place today – €995

## FEATURED TRAINING COURSE: GUIDANCE FOR IDENTIFYING ENDOCRINE DISRUPTING CHEMICALS

---

Register for our upcoming online training course, **Guidance for Identifying Endocrine Disrupting Chemicals** (1-10 September) to gain the information you need to identify endocrine disrupting chemicals (EDCs).

The course will be split into four modules over two weeks. During this time your expert trainers will provide comprehensive background knowledge and in-depth insight into the new EU endocrine disruptor criteria and recent Echa/Efsa guidance.

Register here – £650

## CONFERENCES FROM CHEMICAL WATCH

---

We've updated our conference programme in response to Covid-19, including introducing virtual conferences and rescheduling of some key dates:

Global Business Summit 2020 – 9–10 September, virtual event

Covid-19 Global Overview: Getting the right biocides to market – 16 September, virtual event

Enforcement Summit 2020 – 30 September, virtual event

Key Regulatory Updates: Europe, Asia and the Americas – 14–16 October, virtual event

Chemicals Management for Electronics and Electricals USA – 17–18 November, virtual event

Biocides Europe 2020 – 1–2 December, Copenhagen

## **ONLINE TRAINING COURSES AND WEBINARS FROM CHEMICAL WATCH**

---

Give your professional development a boost with our comprehensive training webinars and online courses:

Chemical Management Requirements in Malaysia and Indonesia – 4 August, 14:00 BST

Chemical Management Requirements in the Philippines – 5 August, 14:00 BST

Chemical Management Requirements in Myanmar, Cambodia and Laos – 6 August, 14:00 BST

Guidance for Identifying Endocrine Disrupting Chemicals – 1-10 September, 9:00 BST

Global Food Contact Materials Regulations – 15 September-15 December

Understanding the Content of SDSs/eSDSs – 7-14 October, 9:00 BST

Chemistry for the Non-Chemist – 22 October, 7:00 BST or 14:00 BST

Understanding the Use of Data for Hazard Communication and Risk Assessment – 5-6 November, 9:00 BST

## **FREE WEBINAR FROM CHEMICAL WATCH**

---

This week, we'll be hosting a free webinar that will address the requirements for EU safety data sheets (SDSs). Find out more:

Changes to EU Safety Data Sheet (SDS) Requirements – 29 July, 9:00 BST

## LEARN AT YOUR OWN PACE WITH OUR ELEARNING COURSES

---

Take your pick of any of our eLearning courses for comprehensive and practical training on key issues affecting your role, giving you the freedom to learn whenever and wherever suits you:

Understanding the BPR

Chemistry for the Non-Chemist

The Practical Guide to Ecotoxicology and the Environment

Beginner's Guide to Toxicology (Version 2.0)

REACH, CLP & Safe Use Communication

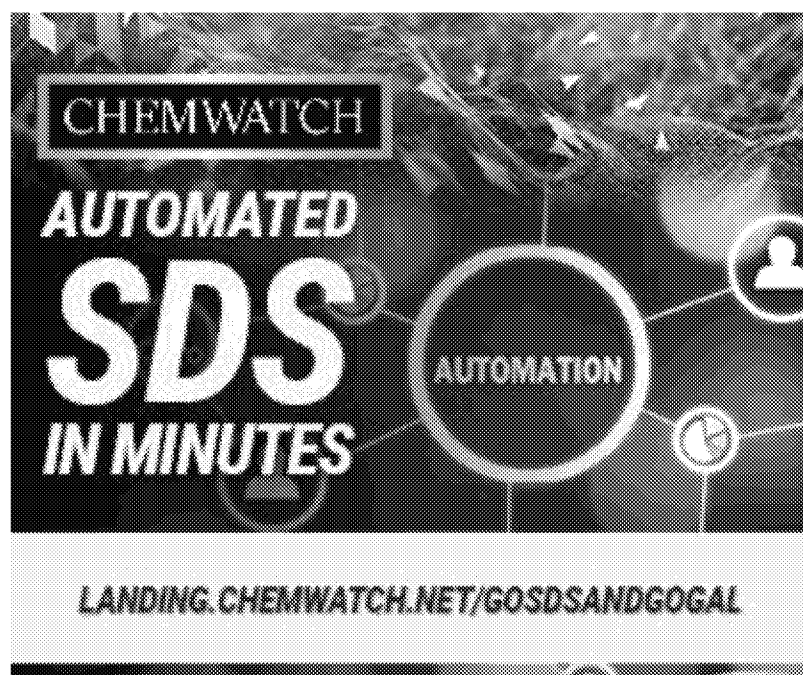

REACH in Practice

The Basics of REACH Regulation

Metals and Inorganic Metal Compounds in Toxicology  
and Ecotoxicology

**New:** Navigating TSCA Part 1

## **JOBS**

---

### **Latest jobs**

Environmental Risk Assessment Specialist

Newcastle-upon-Tyne / possibility of flexible working \* VRS Regulatory

Business Manager – Agchem CRO Services

Northern UK – site or remote base \* VRS Regulatory

GLP Facility Manager

North Yorkshire \* VRS Regulatory

Registrations Specialist - Biocides

Hampshire or possibly home working \* Confidential - Agency is NonStop recruitment

Information and Data Analyst

UK \* Chemical Watch

**ALL JOBS**

## **UPCOMING EVENTS FROM EXTERNAL PROVIDERS**

---

CHCS Training "Poison Centre Notification" (Module 4)

19-20 November 2020 \* Chemical Hazards Communication Society (CHCS) \* Online

**ALL EVENTS**

## **YOUR FEEDBACK**

---

**"Chemical Watch serves us with its profound insight into the regulatory developments in the chemicals industry."** – Qian Xiao, Guangdong Inspection and Quarantine Technology Center

**"Chemical Watch is a really great tool for my daily work."** – Corinne Cudicini, Senior Regulatory Toxicologist, Solvay
